  Download from : http://www.adeneo-embedded.com

  Bluetooth Manager Binary file for commercial use   1 000 €

  Bluetooth Manager source code for commercial use   5 000 €

  Specific development services that will
  cover the adaptation and integration of the
  BSP on your specific hardware   On request

Purchase procedure :

1) Reception of the SLA signed and of the PO for the license amount (see SLA forms)

2) Reception of the bank transfer (see bank code at the end of the SLA forms)

After these steps ADENEO deliver the source code directly by email and deliver by post a CD, the SLA signed and the delivery note.

Note *: Concerning WinCe licensing costs, you'll have to address directly to an authorized distributor to purchase Windows CE license. Our licenses costs cover only the availability for you of the source code of the BSP, not the Windows CE license.*
